A Notable 10-Year Record.

Progress made by the Boy Scout movement in this section of Ohio since the Harding Area council was instituted 10 years ago is a striking example of what can be accomplished through efficient organization and under able leadership

This selvancement has been apparent duting those years but it was yesterday as the tonth anniversary of the arta coun cli was celebrated that the facts and figures were made most apparent

And according to all indications growth and effectiveness of the scout movement in the area will confinue on an increas ing scale during the next ten years. The picture as presented at the anniversary banquet inst night was exceptionally bright and inspiring Especially was the outlook made promising and assuring by onthu slasm of the men attending the banquet which marked the annual meeting of the area council as well as the tenth anni

Tax Unscrambling Big Problem

Muddle of Far Reaching Complication Results from Violation of Consti tution Through Processing Lavy

By DAVID LAWRENCE Copyright 1835 by The Worles Star

Coprinte 1954 by The Norton Star WASHINGTOIF Jan 15- The size of the muddle created by the new deals violation of the Constitution in levying processing taxes has been only dimly realized. Apart from the taxes of anishying the farmers—which perhaps is the easiest of all for ultimately a direct subsidy or bounty will be authorized—there a the larger problem of how to unscramble the situation growing out of collected and incollected taxes. Some amazing complications are developing. Thus one big company of processor has just been notified that, although it claimed on its income tax return a reduction in 1954 for processing taxes paid the government starff the deduction cannot be although because the tax was lifegally collected.

allowed because the tax was illegally collected.

When the company in question tries to get the lax back so that it can be a par of its income the government gays to Indeed wips and means are being contrived to Irevent the processors from get trie, any of the funds now impounded in the custody of the federal courts. Creferences during the last 24 hours have been held between representatives of the department of justice the treasury department and the agricultural adjustment viamistration as to the policy that should be recommended to the President. The AAA officials are holding us for an act of congress that will privent as suits against the government to recover the \$1,000,000,000 collected and paid in 19 the processors before the lower courts be gan granting injunctions.

As for the \$200,000,000 collected since then and in the hands of the courts the AAA wants a retroactive evelve tax imposed so as to recapture 100 per cent of these funds. The treasury and degardment of justice officials arent sure of their legal rights and in the meantime United States attorneys into being told to ask federal judgs not to pay back the processing tax money the reason given being that the department has under consideration an application for a rehearing by the supreme court of the United States of the rice Stillers case on which a unanimous decase on which a ununimous de was handed down on Monday of

ing week.

It is apparent that the government of ficials are stailing for time hoping they is have a policy worked out soon before the judges turn back the \$200,000,000.

The pair absent to the pairs of the pairs of the pairs of the pairs of the pairs.

judges turn back the \$200,000 on The chief objection being raised here to the laxation retroactively of the funds is that the small processors gave price con cessions borrowed money to pay processing inxes and some of them may be forced into bankruptcy if they have to pay the

tax to the government To meet this objection government ficially at a considering a plan whereby the reconstruction finance corporation would make leans physbic over a period of years that the small processors could pay th taxus and the government could apply the

one of the difficulties the government One of the difficulties the government may true it to is that a retroactive law may fixed be held invalid on fer certain circum stances. Price of y last November the United States I iv Weck cites a case decided anunimously in the U S court of claims declaring, that a retroactive tax on silver specialistics is invalid. In this opinion there a quotation from supreme court decisions in three important cases where it was held that if at the film a citizen enters into a transaction it is not taxable and he has no reason to believe or expect a tax will in the future be imposed by reason of it is valid tax thereon cannot be laid by a subsequent statute.

For this reason it may be that the government will have no real right to get the impounded funds to a retroactive exaction though to be vice it might be difficult net milk to be the funds in the hands of the courl. This is because an order to restrain the cell ction of the new tax might not be tessed particularly if in the new statute there is provided some supposein, indequal reneits at law. So the new street (fee is provided some supposed by adequat ren eig at law 50 the situation may develop into one where another tilegal has is imposed the funds go into the freesing and the citizen will spend gener lighting through the court of cisims

The whole mix up put a further trimp in the ludge plettine first therea an estimated leftelt in VV receipts of about \$120,000,000 as compared with exp. uses

estimated leffelt in AAA receipts of about \$120,000.000 as tempered with eap ness teen if the processing taxes and been collected in full. In other words, the AAA was out of 1 tiance by \$1,000.000 in paying the farmers more time result be collected. Now congress is agreed at appropriate in middlifon about \$73,000.000 to pex farmers for infifthing contracts entered into tilegally to be burned but the same. This males a total of \$55,000.000 and if by some extreme of throit tax withing the \$220,000.000 and be disacted from the custedly of the federal counts into the federal transity. Ethiopian sources ridiculed the claims.

Marshal Pietro Badoglio, the Italian commander-In-chief in Ethiopia, announced the southern engagement had ended in "complete victory" and that the troops of Ras Desia Dentity were fleeling along caravan routes to the northwest, pursued by Italians.

In some sections, Radoglio reported, Italian armored cars advanced 75 miles from their bases. Italian losses were stight, he said, and many prisoners were captured. In Addia Ababa, however, Ethiopian officials said a major engagement in the area was impossible, because of the scattered positions of Ras Destrie army.

An Italian war plane and its crew of four which made a forced landing inside the Sudan frontier have been interned under neutrality regulations, the British foreign office announced in London. The Italian government was notified.

Italy, taking its turn at protesting to Geneva, complained of Ethiopian "atrocities" and abuse of the Red Cruss emblem in a note to the League of Nations.

An Quatrated talk describing farming operations in Europe by Prof. G. M. McCune of the agricultural department of Ohio State university brought to a close jesterday the twenty-sixtn annual convention of the Ohio Brotherhood of Threshermen, held in The Star sudfortium. Prof. McLune has a summer had an unusual opportunity to study terming operations on a number of European countries when hamsely an School of the Star School of th

of European countries when he made an 8,600-mile motor vivise that included a visit to the international congress of agricultural engineers, held at Marid on Sept. 28, 1835. He has made 1,500 feet moving picture film of farm operations and used this to illustrate his talk.

The speaker asserted he found a "social significance" in farm machinery in the countries where farmers had new types of machinery the standard of living invariably was high whereas farmers who used primilive methods had low living standards.

German and English farmers have especially good farm equipment, he said.

He mentioned incidentally that for most two years agg" and that it was two years agg" and that farmers of that nation are getting back on their feet.

It's EASY to see when another man is slipping. But it's harder to face it yourself. So it was with Jim. For months, he yaguely realized something was wrong with him. Tasks that he used to take in his stride had become a grind. He dreaded the afternoon hours most. Minutes dragged. Worst of all, it showed in his work. Sluggish days are often due to com-

mon constipution. This ailment has helped to sidetrack many a promising career. It is a great enemy of vigor. Your pace slows down.

Most frequently, common constipation results from meals that lack sufficient "bulk" to exercise the intestines. So many people make the mistake of dosing themselves with pills and drugs that often do more

Scientific tests show that Kellogg's Au Bran supplies soft "bulk." Also that the

THIRD - DIMENSION FILM BRINGS NEW MOVIE SENSATION

The new sensation of being hit baseball without any injury except a shock of surprise that defies you to sit perfectly still awaits patrons of the Palace theater today and Saturday in the new third-dimension film short subthird-dimension film short sub-ject that is offered on a program-that features. Myrna Loy and Spencer Tracy in "Whipsaw." The program was shown hete for the first time last night.

first time last night.

The third dimension or depth of the short subject, titled "Audio-copiks," is so convincing that you're almost certain to be dadging things flying from the screen or reaching out for them before you've finished watching it, like the device that gives depth to still pletures. Audioscopiks requires the use of calored spectacles to make the illusion complete. These, are furnished at the thenter and you get to keep the pair given

These are furnished at the thenter and you get to keep the pair given you. The film looks fuzzy or out of focus if you don't hold the colored spectacles to your eyes.

There are possibly a dozen different shots in the film. A girl on a trapez swings out over the audience, a toper sticks a glass of his favorite dright right under your nose, and a trombone playor thrusts the silde so close you feel certain you could reach out and louch it. Also, you are taken an automobile ride that won't be forautomobile ride that won't be forgollen soon

gotten acon. Don't assumer that all of this attention to Audioscopika means that Myrna Loy and Spencer Tracy in 'Whipsaw' is a minor part of the program. They offer an infriguing play involving the theft of four pearls valued at half a million dollars. The story moves swiftly from the first shot to the close and every scene brings a surprise. Myrna is a fascinating adventuress in a gang of internaa surprise. Myriae is a fascinating adventuress in a gaug of international lowel thioves, but decides that her minor part in the theft of the pearls will be her last "job." Spencer Tracy is a secret zervice agent assigned to the theft case and the way he goes about solving
